

Mali

In Mali, ASSIST is working with the Ministry of Health to scale up successful past achievements improving the quality of obstetric and neonatal services and reducing maternal and infant anemia. Focused on evidence-based, patient-centered, high-impact, and cost-effective interventions, the project supports an approach to care that responds to patients' needs and strengthens the capacity of households to participate in an informed way about their own care.

For more information on ASSIST's work in Mali, please contact assist-info@urc-chs.com [1].

The USAID ASSIST Knowledge Portal is made possible by the generous support of the American people through the [U.S. Agency for International Development](#) and its [Bureau for Global Health, Office of Health Systems](#). The information provided on this web portal is not official U.S. Government information and does not represent the views or positions of USAID or the U.S. Government. The USAID ASSIST Project is managed by [University Research Co., LLC](#) under Cooperative Agreement Number AID-OAA-A-12-00101.
