Georgia

In Georgia, ASSIST worked to improve the quality, consistency, and continuity of medical care in Georgia in a demonstration region, improve access and use of evidence-based medical information by Georgian physicians, and enhance the availability of modern, evidence-based treatments in privately and publicly funded care settings; building on previous work conducted under the Health Care Improvement Project (HCI) [1].

For more information on ASSIST’s work in Georgia, please contact assist-info@urc-chs.com [2].

The USAID ASSIST Knowledge Portal is made possible by the generous support of the American people through the U.S. Agency for International Development and its Bureau for Global Health, Office of Health Systems. The information provided on this web portal is not official U.S. Government information and does not represent the views or positions of USAID or the U.S. Government. The USAID ASSIST Project is managed by University Research Co., LLC under Cooperative Agreement Number AID-OAA-A-12-00101.
