Webinar: Reprocessing Guidelines for Basic Neonatal Resuscitation Equipment in Limited Resource Settings (Spanish)

[webinar1.png](#) [1]

The second edition of HBB / Helping Babies to Breathe includes an update on the proper way to reprocess reusable neonatal resuscitation equipment, in order to help prevent infections associated with health care. The guidelines were developed in collaboration with HBB experts as a practical reference material that describes the disinfection methods available to reprocess the resuscitation team and describes in detail the steps to follow for each method. During the webinar, participants will become familiar with the guidelines and how they can be incorporated to improve the quality of care for the newborn.

Presented by: Dr. Manjari Quintanar-Solares, Technical Officer of MCSP, who led the consensus process to develop the guidelines

Moderated by: Bertha Pooley, Member of the Executive Committee of the Neonatal Alliance

Date: Tuesday 2 July 2019

Time: 10h00- 11h00 (El Salvador, Guatemala, Honduras, Nicaragua), 11h00- 12h00 (Ecuador, Perú) 12h00- 13h00 (República Dominicana, Washington D.C., Paraguay)

La segunda edición de HBB/Ayudando a los Bebés a Respirar incluye una actualización en la forma adecuada de reprocesar los equipos de reanimación neonatal reutilizables, para así contribuir a prevenir infecciones asociadas a la atención en salud. Las directrices fueron desarrolladas en colaboración con expertos de HBB como un material de consulta práctico que describe los métodos de desinfección disponibles para reprocesar el equipo de reanimación y describe a detalle los pasos a seguir para cada método. Durante el webinar los participantes se familiarizarán con las directrices y la forma en que pueden incorporarlas para mejorar la calidad de atención del recién nacido.

Presentado por: Dra. Manjari Quintanar-Solares, Oficial Técnica de MCSP, quien lideró el proceso de consenso para desarrollar las guías

Moderado por: Bertha Pooley, Miembro del Comité Ejecutivo de la Alianza Neonatal
