Webinar- Data Collection for Community Assessments

Interested in learning more about data collection methods? Are you preparing to conduct a community-level assessment? This introductory webinar will give you guidance and tips to conduct community-level landscaping and assessments and focus on building capacities in qualitative data collection methods, including focus group discussions (FGDs) with community members and key informant interviews (KIIs) with service providers. The webinar will help you to design, prepare, and implement assessments, as well as share findings with local and global audiences via blogs, reports, and journals. Hear from colleagues in the field working on similar efforts in the Eastern and Southern Caribbean and tune-in to collaborative learning.
