

Malawi

In Malawi, ASSIST is building the capacity of communities to improve the quality of services provided to vulnerable children and their families through training and support for community quality improvement teams and community facilitators. ASSIST is also supporting the One Community Project to scale up the use of improvement methods, aiming to strengthen health and social services for vulnerable populations, promoting their resilience. The project also supports the Ministry of Health and PEPFAR implementing partners to improve the quality and safety of voluntary medical male circumcision services at high-volume sites.

For more information on ASSIST's work in Malawi, please contact assist-info@urc-chs.com [1].

The USAID ASSIST Knowledge Portal is made possible by the generous support of the American people through the [U.S. Agency for International Development](#) and its [Bureau for Global Health, Office of Health Systems](#). The information provided on this web portal is not official U.S. Government information and does not represent the views or positions of USAID or the U.S. Government. The USAID ASSIST Project is managed by [University Research Co., LLC](#) under Cooperative Agreement Number AID-OAA-A-12-00101.
