Tanzania

Focusing on high-volume facilities, the project supports the Government of Tanzania and PEPFAR implementing partners to apply improvement methods and promotes facility- and community-based services to increase the effectiveness of service delivery in HIV care, prevention of mother-to-child transmission of HIV, voluntary medical male circumcision, and child protection, particularly for the most vulnerable.

For more information on ASSIST’s work in Tanzania, please contact assist-info@urc-chs.com [1].

The USAID ASSIST Knowledge Portal is made possible by the generous support of the American people through the U.S. Agency for International Development and its Bureau for Global Health, Office of Health Systems. The information provided on this web portal is not official U.S. Government information and does not represent the views or positions of USAID or the U.S. Government. The USAID ASSIST Project is managed by University Research Co., LLC under Cooperative Agreement Number AID-OAA-A-12-00101.
